Eval. Notes: Facility: Chambord Prints Location: 38 Jackson St., Hoboken, 07030 3rd Floor (51 Harrison St. - entrance) ID#: NJD980582878 Inspection date: 9/26/17 Inspector: Elizabeth Stochak A routine compliance inspection was performed on 9/26/17. A pre-inspection conference was performed describing the purpose of my visit. While located at 38 Jackson St., the entrance is located at 51 Harrison Street. Pay parking is available on Harrison. Chambord Prints manufacture hand printed wallpaper. Chambord is located on the 2nd and 3rd floors. SQG amounts of hazardous waste (D001, F003) is generated from spent solvents used to clean the printing plates. A washing basin is located on both floors and the drum used to collect the waste is reused until the solvent is no longer any good. One (1) 55-gallon drum was observed wiith each wash basin at time of inspection. No other hazardous waste containers were observed and no deficiencies were noted. Six (6) hazardous waste manifests were reviewed along with the emergency procedures. 2015 hazardous waste report and CRTK survey. No deficiencies were noted. A post inspection conference was performed describing the inspection findings.													

No Linked Violations

CEI Evaluation	09/10/2012	Activity Location:	NJ	By:	STATE	Identifier:	001	Person:	NOMPK	Suborganization:		Found Violation:	NO
	NOC Date:	Citizen Complaint:	NO	Multimedia Inspection:	NO	Sampling:	NO	Not Subtitle C:	NO	Day Zero:	09/10/2012	Focus Area:	
Eval. Notes: Chambord Prints is a manufacturer of hand silk-screened wallpaper. The facility occupies two floors of the building located on Jackson Street. The company recently downsized due to the poor economy and drop of business for custom hand-silk-screening wallpaper. During the downsizing (currently nine employees remain), Chambord generated LQG quantities of hazardous waste, due to the cleanout of unusable paints. This is considered a one-time cleanout. The previous RCRA inspection was performed in 2010 and at that time the company generated CESQG quantities of hazardous waste solvent Blend 36 , napthalene, alcohol and xylene (D001-F003/F005. Chambord Prints continues to recover most of their spent solvent by pouring the spent solvent into five gallon pails which are the poured into a 55-gallon drums. When the solvent settles, a small amount of paints settle down to the bottom, and the solvent is then reused. This process is repeated until the solvent is no longer usable. At the time of inspection, there were three 55-gallon drums, all stored on the 4th floor of the building. On the third floor are paints, inks and water-based paints and other products used for manufacturing the wallpaper. At this time, the facility generates CESQG of hazardous waste solvent. However, Chambord representatives state they maintain their SQG status until all their paints are water-based and no longer require solvent for cleaning the screens. An Emergency Plan and emergency phone names and phone numbers are posted in the building and with the main office. The RTK was filed with DEP in February 2012. Aramark provides & launders their rags. Within the next six months, Chambord Prints should be utilizing only water-based paints for their products. No violations were cited at this time.													

No Linked Violations

Note: Penalty information associated with an enforcement action is reported with the enforcement action. For enforcement actions associated with multiple violations, the penalty information will be reported with each violation, however, the penalty is only assessed once, regardless of the number of violations associated with the enforcement.

Note: Penalty information associated with an enforcement action is reported with the enforcement action. For enforcement actions associated with multiple violations, the penalty information will be reported with each violation, however, the penalty is only assessed once, regardless of the number of violations associated with the enforcement.
